

Gender Equity

Inclusion and diversity is a way of life at American Airlines. Every day, team members work to make American a place where all people feel welcome and valued. Careers that were once traditionally filled by one gender or another are now more diverse. From female pilots to male flight attendants, positive gender recognition in the workplace, both in traditional and non-traditional careers, is very important to remove gender biases. Look at the job titles and occupations below. Can you modify them to make them gender neutral?

Gender Biased Title	Gender Neutral Title
Stewardess	Flight Attendant
Trashman	
Housewife	
Repairman	
Cleaning lady	
Congressman	
Nanny	
Weatherman	
Waitress	
Businessman	
Secretary	

In the 1980s, the terms "Stewardess" and "Steward" were replaced by "Flight Attendant", a more gender-neutral term.
